

We would like to tell you that the FCC should not implement any proposal that would lessen Indiana's Telephone Privacy Law protections. This law has been wonderful!! It has allowed us to enjoy our home and family time. We used to get 5 to 6 calls a day and they were always in the early morning or during dinner and evening. People should be allowed to have quiet enjoyment of their home and not subject to unwanted, rude intrusions. We cannot tell you how this law has improved our lives. We appreciate the State of Indiana's help and would be very appreciative if you would help us preserve our quiet enjoyment of our time at home. Thank you!
